

Geometry Unit Lesson 1A

Name: _____

Date: _____

1. Create a written expression that could be used to solve for the area of the blue rectangle. Use the terms: *area of rectangle* and *area of triangle* in your written expression.

Area of Blue Rectangle = _____

2. Using your written expression, solve for the area of the blue rectangle in problem 1.

The front of the office building downtown needs to be repainted with a fresh coat of orange paint. Everything but the windows needs to be painted. Create a written expression that could be used to solve for the total area that needs to be repainted.

Area to be Repainted = _____
